Officer

International Conference to Discuss Ways of Facilitating Economic Growth and Enhancing Public Administration in Belarus

On February 11-12, PMCG, in collaboration with BEROG, hosted representatives of the governments of Belarus, Georgia, Poland, Hungary and Czech Republic, international organizations, NGOs, and the private sector to discuss the most suitable methods of facilitating economic development and enhancing public administration in Belarus. The event served as an appropriate platform for all stakeholders to discuss recent challenges faced by the private sector in Belarus and how barriers to business development can be overcome.

Building Capacity of Organizations in Kosovo to Implement USAID-Funded Activities

PMCG was contracted by Chemonics, under the USAID-funded Advancing Kosovo Together (AKT) Program, to accomplish the organizational capacity assessment of the Community Development Foundation (CDF), a local (Kosovo) NGO implementing the AKT Local Solution program. AKT is a three-year program which aims to foster positive and constructive inter-ethnic cooperation between the majority and minority communities in addressing common problems of unemployment, social needs, and municipal services.

Hosting Iraqi Official Delegation to Introduce Effective Economic Reforms

On February 3-6, PMCG hosted an official delegation from Iraq. The study tour was organized by the International Finance Corporation (IFC) and aimed to share, with visitors, Georgia's experience of successful economic reforms in tax administration, E-governance and public services. The delegation was headed by Dr. Nufal Al Hassan, the Iraqi Prime Minister's Chief of Staff, and comprised of economic advisors of H.E. Prime Minister, including Robert Bue Jouda, the World Bank Group (WBG) Iraq Country Manager, and Lemya Ayoub, WBG Private Sector Development Analyst.

Supporting Electricity Systems Commercial Operator (ESCO) to Meet Market Demand

PMCG was recently contracted by Mendez England & Associates (ME&A) to support Electricity Systems Commercial Operator (ESCO), the only commercial electricity operator in Georgia, to improve performance, under the USAID/Georgia Human and Institutional Capacity Development 2020 activity (HICD 2020). Due to Georgia's intention to integrate into the European Union (EU) and the GoG's subsequent efforts to harmonize its policies, laws, regulations, and institutional arrangements with the EU standards, Georgia will have to open its energy market to competition.

Introducing Waste Management Standards in Kvemo Kartli Region, Georgia

PMCG will support the implementation of the Solid Waste Management project in Kvemo Kartli region. As a member of the consortium led by HPC AG, PMCG will supervise construction to ensure punctual and effective construction of the new sanitary landfill. In addition, PMCG will oversee all activities and ensure that all procurement is carried out in accordance with the EBRD's Procurement Policies and Rules (PP&R), and will provide support to review the present design, technical specification, and development of tender documentation.

Supporting the Ministry of Labor, Health and Social Affairs of Georgia to Enhance IT Infrastructure

PMCG, as part of a consortium led by Tetra Tech ARD, is supporting the Ministry of Labor, Health and Social Affairs of Georgia (MoLHSA) to enhance its capacity in information technology (IT), within the framework of the USAID GGI project. Recently, MoLHSA introduced a national health information system and a national eHealth strategy. The changes were of major significance and GGI supports the Ministry to ensure the availability, coordination, distribution and use of accurate, reliable and user-friendly health information, aimed to improve health services and program design and implementation, policy development, monitoring and evaluation.
