Supporting Kosovo to Boost its Tourism Sector

USAID's Partnership for Development (PFD) program contracted PMCG to support the Government of Kosovo to facilitate development of its tourism sector. The Government of Kosovo, in its 2015-2018 program, identified tourism as one of the most important areas for society and economic development. The country has the capacity for developing various types of tourism including winter and mountain, recreational-sports, and cultural.

Preparing Ground for Effective Cross-Border Electricity Trading

PMCG as a partner of the USAID Governing for Growth (G4G) program contributes to the introduction of the Electricity Trading Mechanism (ETM) in Georgia. G4G is preparing to enable competitive electricity trading in domestic and export markets and the ETM will enable simultaneous foreign trade of electricity as opposed to the current one-directional transactions.

Supporting Civil Service Bureau to develop Job Evaluation Methodology

In further support of the Government of Georgia’s current initiative to reform the civil service, PMCG, under the USAID Good Governance Initiative (GGI) program, is assisting the Civil Service Bureau (CSB) of Georgia to conduct job evaluation which entails formulating classification methods, developing a ranking model, assign grades to jobs, and developing an approach to unify existing titles. The objective of this assignment is to support the CSB to develop the job evaluation methodology to be linked with the ranking system in the civil service necessary for drafting the secondary legislation prior to the enactment of the new Law on Civil Service.
